
ARTYOM IVASHENKO

Senior iOS / Mobile Engineer

Tashkent, Uzbekistan | +998 91 781 39 87 | artiom@ivashenko.work | linkedin.com/in/artiom-ivashenko

SUMMARY

Senior iOS / Mobile Engineer with 4.5+ years building consumer, fintech, and AI-enabled products. Own end-to-end delivery from architecture and Swift/SwiftUI/UIKit implementation to integrations, App Store release, analytics, and production support. Built products reaching 60K+ MAU, 200K+ installs, and 20K+ fintech clients.

EXPERIENCE

Founding Mobile Engineer (iOS & Android)

LovOn | Aug 2024 – Present | Remote

- Built LovOn's mobile product across iOS and Android from the ground up, taking it from concept to production and scaling it to 60K+ monthly active users.
- Own end-to-end mobile engineering across product clarification, architecture, implementation, releases, analytics, and production support.
- Designed the mobile architecture and built the iOS app with Swift, SwiftUI, UIKit, MVP-C, WebSockets, StoreKit, and subscription integrations.
- Increased engagement by 25% in recent product iterations by refining core interaction flows and shipping new AI-enabled features.
- Built real-time voice and AI-enabled experiences using LiveKit, RetellAI, and backend APIs.
- Drive execution with founders, product, and design, turning hypotheses into reliable, production-ready features.

iOS Developer

AEZAKMI GROUP | Apr 2024 – Aug 2024 | Remote

- Built and shipped 15 iOS apps from concept to the App Store, achieving an average rating of 4.7 across releases.
- Delivered MVPs and production-ready apps in 2–4 week cycles, owning implementation through App Store submission.
- Built SwiftUI/UIKit/Combine architectures with MVP and Coordinator; integrated REST APIs, Firebase, analytics, and third-party SDKs while improving responsiveness and launch performance.

iOS Developer

APEX BANK | Jan 2023 – Apr 2024 | Tashkent, Uzbekistan

- Built and launched the APEX BANK iOS app from early prototypes through production; the product onboarded 20K+ clients within its first three months.
- Developed secure SwiftUI/UIKit functionality and integrated banking APIs and transaction workflows in a regulated fintech environment.
- Implemented a micro-modular VIPER/MVP architecture and strengthened reliability through defensive error handling, performance optimization, and careful handling of edge cases.

iOS Developer

Freelance | May 2022 – Jan 2023

- Built a real-time music-sharing app with synchronized AVFoundation playback and background audio; reduced memory usage by 20% and improved stability.

iOS Developer, Part-time

emovi | Jan 2022 – Aug 2022

- Built and launched a SwiftUI/UIKit, MVVM, REST, and Firebase app with emoji-based movie discovery; reached 200K+ installs and up to 50K daily active users.

iOS Developer

Freelance | Oct 2021 – Jan 2022

- Shipped a UIKit, HealthKit, Core Data, and Firebase Analytics health-tracking app with a 4.5+ App Store rating.

TECHNICAL SKILLS

iOS: Swift, SwiftUI, UIKit, Combine, UserDefaults, Keychain, AVFoundation, Core Data, StoreKit, LiveKit, HealthKit, Swift Package Manager (SPM), Subscriptions

Architecture & integrations: MVVM, MVP, MVP-C, VIPER, Coordinator, REST APIs, WebSockets, Firebase, RetellAI, Alamofire, Mixpanel, Amplitude, Notion, Jira, Apphud, RevenueCat, Adapty

Delivery: Xcode, Git, CI/CD, TestFlight, App Store Connect, App Review Process, Apple Human Interface Guidelines (HIG)

EDUCATION

Lomonosov Moscow State University (MSU), CMC Faculty | Fundamental Informatics and Information Technology, incomplete | 2020–2022

Languages: Russian (Native) | English (B2)
